Notice to Applicant:

- (1) If your planned grubbing, does not alter the general drainage pattern to the detriment of the abutting properties, and does not exceed one (1) acre, you are **not required to obtain a grubbing permit.**
- (2) You are, however, required, by law, to incorporate Best Management Practices to the maximum extent practicable to prevent damage by sedimentation to streams, watercourses, natural areas and the property of others.
- (3) See the appropriate Engineering Division Personnel for guideline on what Best Management Practices to employ and implement.

The Application shall be accompanied by two (2) sets of the following documents:

1. Grubbing, Sedimentation, and Erosion Control Plans drawn to a convenient engineering scale showing:
 - a. Vicinity Map and North arrow, property lot lines, easements, setback lines.
 - b. Location of any building, structure, and improvements on the property where the work is to be performed.
 - c. The area in square feet or acres of the land to be grubbed.
 - d. Best Management Practices to be used to control dust emissions, sedimentation, and erosion to the maximum extent practicable by watering with trucks or sprinklers, erection of dust and silt fences, limiting the area of disturbance, and timely grassing of disturbed bare areas.
 - e. Statement indicating the disposition of grubbed materials.

For DPW-ENGR USE Only. Do not write below this line.

This is to acknowledge receipt and acceptance of this application, including the required supporting documents listed above.
